THE BARRE NEWSPAPER COM'Y., BARRE, VT.

BARRE VT., NOVEMBER 14, 1904.

The wheels of justice turn hard sometimes. The cases of Roland B. Molineux and Alan G. Mason, two innocent men who were obliged to stand up against the most serious charge that the courts can make, causes one to wonder if there should not be some method wherein an innocent man thus imposed upon can have some redress for the expense it puts him, to and for the damage to his business reputation.

"If a scab is a hero, then Benedict Arnold was a patriot and Judas Iscariot was a saint." These are the words of President Samuel Gompers in his address to the American Federation of Labor yesterday when he referred to the recent attack of President Eliot upon labor unionism. Those few words express more than any three hours discussion, that President Eliot is capable of carrying on.

Wanted:—More clerks at the Barre Post Office.

An honest politician has been discovered. He would not accept his election to Congress because he believed that in two counties there was a wrong count of the votes which had the mistake not been made his opponent would have been elected. The gentleman has obtained a sufficient reputation by this action to warrant him in going on the books as a lecturer.

A typewriter for the pocket is one of the latest bits of American ingenuity, specially designed to meet the requirements of journalists and authors who need to take notes under conditions where a pencil and paper would not be convenient. — Manchester Union.

All that it needs to make the invention perfect is to find a place to carry the stenographer.

Another Capital removal bubble has burst.

A Bird Killer.

Every spring and fall large numbers of birds are killed by the Washington monument. The city of Washington seems to be directly in the route taken by many of the migratory birds in the flight between the north and the south, and twice a year thousands of feathered songsters meet their death by flying against the tall marble shaft in the night. Just now the fall slaughter is at its height and every morning many birds are to be seen about the base of the monument. The dogs and cats of that part of the city have learned that the base of the monument is a good place to get an early meal in the morning without trouble, and many of them are regularly on hand. Most of the birds killed are yellow and black throated warblers and small thrushes.

FOUND—At a house Tuesday night pocketbook containing sum of money. Owner can have same by proving property and paying charges. O. P. Jones. 1834

FOR SALE—Harness shop and stock at North Calais, Inquire W. F. Alsworth. North Calais, Vt. 181-86

TO RENT—Two furnished rooms with furnace heat and electric lights. Call at T. L. Snow's Walnut St. or Eureka Creamery. 1834

TO RENT—Nov 15th cottage with five rooms and toilet. at Bemis Place. Inquire 304 No Main St. 1834

Ayers Cherry Pectoral

One dose at bedtime prevents night coughs of children. No croup.

A Supreme Court Coincidence.

While in session the associate justices of the United States supreme court are seated on either side of the chief justice, in the order of their commissions, the oldest in commission on his right, the next oldest on his left; the third is second on the right and the fourth second on the left, and so on alternately, the youngest in commission occupying the seat on the extreme left.

When Justice Field was the senior associate, this arrangement produced this curious result: The names of the justices on the right had but a single syllable—Field, Gray, Brown and White—while the names of those on the left had two syllables—Harlan, Brewer, Shiras and Peckham. All were married, but no one of the justices on the right had ever had any children, while each of those on the left had both children and grandchildren. The colors were all on the right—Gray, Brown and White—while the left was colorless—Youth's Companion.

Start Right

Now is time to order your clothes for winter. Do not put it off too long. Perhaps you have thought you'd have us make them to your measure. All the more reason to get about the business. It always takes time to make to special measure. The best clothes ready-to-wear are those made by Rogers Peet & Co. of New York. \$15, \$18, \$20, \$22 buys suits that are worn by more well dressed men in New York than any other make. Overcoats these days are big comfortable, easy garments, that give a man style and the regular Broadway swing. It don't make much difference how good an overcoat you want we are ready to fit you anywhere between \$15 and \$60 ready-to-wear. If you can't come to Burlington let us hear from you by mail. We deliver the goods prepaid by express.

PEASE'S

City Hall Square South, Burlington, Vt.

Building in Maine.

They do things oddly in the Pine Tree State sometimes. In the outskirts of the shipbuilding city of Bath I saw recently the front wall under the roof of a new house torn out and the bow of a twenty-four foot boat protruding. A long distance from the water the owner had passed the winter building the boat in his attic, knocked out the front of his house to remove it to the yard, and then transported it by skids to the Kennebec river, says the Boston Post. And on the same trip in the elongated township of Phibeurg my driver pointed out an isolated house, a modern structure built by its owner personally and entirely inclosing his smaller and more ancient house. The inner one he and his family occupied during the constructing of the new one and then demolished it and ejected "the remains" through the new windows.

TO CURE A COLD IN ONE DAY. Take Laxa live Bromo Quinine Tablets. All druggists refund money if it fails to cure. R. W. Grove's signature is on each box. 25.

Grit in the Eye.

A useful hint was given the other day by a physician who removed a piece of grit from a patient's eye. The accident had occurred at the beginning of a railway journey lasting some hours. "Another time when you are troubled with grit in the eye," said the doctor, "don't attempt to get it out, but just cover the eye with your hand to keep it closed and blink away as hard as you can with the other till the grit is dislodged. This hint was given to me by a commercial traveler and how it acts is more than I can tell you, but it does, and that is all that matters to the sufferer."

Treatment Of Catarrh.

ALMOND SNUFF should be used in the evening just before retiring, and in the morning immediately after rising. In this way one can breathe all day freely through the nose, and the same at night while sleeping. It also prevents that distressing cough caused by the mucous running down the throat while sleeping. Many will be cured by a single bottle, some will require two or three bottles, and some stubborn cases more. But in every case a persistent use is sure to cure. Sold by all dealers in medicine, or will be sent by mail on receipt of 25 cents. Stamps taken.

Henry, Johnson & Lord, Props., Burlington, Vt.

LITHOGRAPHERS COMBINE.

Denial Made, However, of Intention to Form a Trust.

Buffalo, N. Y., Nov. 14.—Representatives of a number of lithographing firms, who have held several meetings in the city, announce that an organization has been perfected which will be known as the Poster Printers' association. The headquarters will be in New York, and the constituent concerns are as follows:

The Courier company of Buffalo, the Metropolitan Printing company of New York, the Seers Lithographing company of New York, the Miner Lithographing company of New York, the Donaldson Lithographing company of Cincinnati, the Erie Lithographing company of Erie, the H. A. Thomas & Wylie company of New York, the Enquirer Job Print company of Cincinnati, the W. J. Morgan company of Cleveland, the J. Ottman Lithographing company of New York, the Federated Lithographing company of New York, the American Show Printing company of Milwaukee, the Riverside Printing company of Milwaukee and the Calvert Lithographing company of Detroit.

It is expected that a number of other establishments will join the association.

The following officers were elected: President, H. C. Miner of New York; vice president, W. M. Donaldson of Cincinnati; secretary and treasurer, George J. Cooke of New York; executive committee, George Bleistein of Buffalo, F. J. Walker of Erie and S. Pfeil, Jr., of Milwaukee.

The object of the association is said to be the protection of the interests of the members. The formation of a trust is denied by those interested.

THE BIGGAR-BENNETT CASE.

Hendricks and Stanton Plead Not Guilty to Conspiracy Charge.

Freehold, N. J., Nov. 14.—Dr. C. C. Hendricks, proprietor of a sanitarium at Bayonne, where Laura Biggar stayed for a time after the death of the late Henry M. Bennett, to whom she claims to have been married, and Samuel Stanton, formerly a justice of the peace in Hoboken, who, with Hendricks and Miss Biggar, are alleged to have entered into a conspiracy to defraud the other heirs of the Bennett estate, were called before Judge Neasey here during the day to plead to an indictment charging them with conspiracy.

Each entered a plea of not guilty. Stanton also entered a similar plea to a further indictment charging him with perjury. The trial was set for Nov. 24. It is not known whether a true bill has been found against Miss Biggar, as she was not in court, and the indictment, if there be one, has not been recorded. Miss Biggar is under bonds to appear in court next week to answer any indictment that may be found.

YOUTHFUL SLAYER HELD.

Ten-year-old Girl Testifies to Murder of Her Family.

Pittsburg, Nov. 14.—The coroner's inquest into the Cawley tragedy, which occurred at Homestead, Pa., Oct. 10, has been concluded, and the jury has held Charles Cawley, aged sixteen years, for the murder of his mother and four brothers and sisters.

Agnes Cawley, aged ten years, who survived her wounds, told the story of the awful crime and said she saw her brother Charles hit the victims with the ax.

The prisoner was remanded to jail to await the action of the grand jury. During the inquest he maintained that stolid indifference which has characterized him ever since the tragedy.

Banquet to Foreign Envoys.

Washington, Nov. 14.—The foreign representatives to the dedication of the new building of the New York chamber of commerce, headed by Prince Henry of Pleiss, arrived here during the afternoon and in the evening were entertained at a banquet at which Admiral Dewey and Generals Corbin, Wood and Young were present. The foreigners were accompanied by a committee of New York financiers.

Would Grow Cotton in Jamaica.

London, Nov. 14.—The efforts of the members of the Lancashire Cotton Growers' association to emancipate themselves from the American raw supply have been extended to Jamaica. The association has voted a large sum of money to be devoted to cotton growing in that island on an extensive scale. It is expected that a large area in Jamaica will be planted with cotton next season.

Heat For Egan Continues.

Kalispell, Mont., Nov. 14.—The Great Northern company has employed eleven men to continue for ten days the search for Superintendent Egan, but has no plans after that time. It is now believed that Mr. Egan is dead. He is said to have carried life insurance amounting to \$25,000. What effect a failure to find the body would have on the insurance is being questioned.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 35c bottle to prove satisfactory or money refunded.

FEDERATION OF LABOR

Annual Convention Begins Its Sessions at New Orleans.

GOMPERS SCORES EDUCATOR.

In Opening Speech He Criticizes the Head of One of the Leading Educational Institutions of the Country.

New Orleans, Nov. 14.—The twenty second annual convention of the American Federation of Labor came to order here in Odd Fellows' hall with about 400 delegates present.

The visiting delegates were escorted from the St. Charles mansion, the official headquarters, by the members of the local trades and labor assembly, headed by Robert E. Lee, president of the local organization, and by James Leonard, the federation organizer for the state of Louisiana.

When the convention had been called to order, Mr. Lee delivered an address

PRESIDENT GOMPERS.

on behalf of the laboring men of New Orleans to which Mr. Gompers responded.

President Gompers' Speech.
After touching upon the scope and bearing of the labor union movement, President Gompers declared that it was amazing to note the ignorance among so called educated people regarding the aims and objects of the organization. "No man who as an educator," said President Gompers, "poses as a strike breaker is fit for the position he holds. Compared to such a man Benedict Arnold was a martyr and Judas Iscariot a saint."

Although no name was mentioned, it was understood by the delegates that reference was made to the head of one of the leading educational institutions of the country, and they applauded with vehemence. Cheers were again called forth when it was declared that the man who acted the role of a strike breaker was looking backward toward barbarism and not toward the future.

A call was made for the report of the committee on credentials and that body not being entirely prepared considerable delay resulted. The report declared that sixty-nine national organizations, nine state organizations, fifty-five central bodies, fifty-four local and federal bodies and four fraternal delegates had reported and were entitled to representation.

The Total Voting Strength.
The total voting strength of the bodies represented by the delegates was about 10,000.

It was recommended that credentials be denied to a number of delegates who were opposed chiefly because of nonpayment of dues. A protest against the seating of the delegates of the Amalgamated Association of Carpenters and Joiners was made by the United Brotherhood of Carpenters and Joiners. Upon motion, the contest was referred back to the committee for further action, and its other recommendations were adopted.

James Duncan moved that a special committee be appointed to which all disputes between the branches of the building trades should be referred, this committee to report directly to the convention. This motion, which removed much of the work incidental to the dispute between the carpenters from the floor of the convention, was adopted.

A special committee was also appointed during the day to consider the differences between the longshoremen and other organizations who claim the former are intruding upon their territory.

Miss Hoge Had Pneumonia.

Washington, Nov. 14.—Deputy Coroner Glassbrook during the day performed an autopsy on the body of Miss Louise Hoge of Evanston, Ill., who has been under treatment of a Christian Scientist for several weeks for typhoid fever and who died here during the night. The result of the autopsy was a decision that Miss Hoge died of pneumonia.

Costly Blaze at Oliphant.

Scranton, Pa., Nov. 14.—A disastrous fire broke out in the general store of Atherton & Co. at Oliphant and swept along the north side of Lackawanna street, destroying ten business blocks. The fire department of this city sent several companies to assist in checking the flames. The estimated loss is \$170,000.

Ends Melancholia by Suicide.

Lockport, N. Y., Nov. 14.—Mrs. Fred W. Wakeman found her cousin, Miss Nancy Kane, lying dead on the floor of her bedroom, a revolver by her side and a bullet hole in her forehead. Miss Kane had evidently shot herself. She had been suffering from melancholia.

H. F. CUTLER'S STABLE.

HOW MANY ARE THERE? Perhaps One in Fifty in an Entire Community. A very Serious State Of Things.

How many really healthy persons are there in any community? Sound and all right from top to toe, inside and outside? Hardly one in fifty. What ails nearly all of us? Weak and yet lack strength. We are easily tired—mind and body. We are under the weather without knowing why. Women are "easily upset," "not at all well," "nervously depressed," and have worrying symptoms that keep them ringing the doctor's door bell. Men complain of a want of energy and grip in business. Chances to make money all slip through their fingers. It is said that heart failure is so common as to be almost epidemic. Is it true? Certainly every day. What are the bottom facts? They are Digestive failure and the shortage of genuine nourishment. Food ferments and generates deadly gases and acids. These bite like venomous snakes and at last old, clammy death comes of it, preceded perhaps by rheumatism, gout, liver and kidney complaints, etc. The successful remedy is Caloura Solvent, discovered within the last two or three years by Dr. David Kennedy, of Kennedy Row, Kingston, N. Y. It is new, powerful and safe. It cures where no other treatment has any effect whatever. You have heard of Dr. David Kennedy and know his high character. The medicine matches the man. Remember the name—Caloura Solvent.
